25X1

Talked to [redacted] about State Department's draft of a paper in regard to the reorganization of the Intelligence Division of [redacted]. Have given this memorandum to Gen. Smith, suggesting that he may want to discuss it at the IAC meeting tomorrow.

25X1

25X6

O/NE advised me that O/CD had received a request from G-2 for an additional copy of NIE 18. This copy would be passed to G-4, who in turn would give it to a private contractor doing work on a very sensitive project. Called Dr. Andrews and requested considerably more information before we could possibly consider such a thing.

Called Dr. Andrews again and he has spoken to G-2 and told them that in the case of such an unusual request for an NIE, it would have to be submitted over Gen. Pollard's signature.
